Dear Mr. Gus Trejo,

Imagine a way to have an effective video conference with a group of people anywhere in the world without anyone having to leave their desks. And imagine that while you're at it, you are saving your company time and money.

See what the most secure, easy-to-use web conferencing solution can do for your business.

Visit www.epoplive.com/demo for a **FREE** online demo.

You'll see for yourself how businesses around the globe have profoundly changed how they communicate with e/pop web conferencing. And once your demo is complete, you'll also get a **FREE** 128MB MP3 player with USB flash drive for just 15 minutes of your time. Set it up today by visiting www.epoplive.com/demo or by calling 1-888-665-EPOP.

Connect the whole team "in person" without anyone leaving their desks.

Conference-in people from down the hall or across the globe. With e/pop, all your users can communicate complex topics easily and quickly, while enjoying the convenience of browser-based collaboration. Simply the best multiparty video conferencing solution, it's more advanced than expensive, time-consuming boardroom video conferences, and more sophisticated than other desktop video solutions where only two people can communicate at a time.

Spend less time on installation, maintenance and support.

Available as on-premise software or hosted service, e/pop comes in an IT-friendly, one-download executable that's really easy to install. For server installation, *PC Magazine* says, "**You'll be up and running in 5 minutes and 5 mouse clicks.**" And once it's installed, using it is as easy as launching a browser. And it's amazingly affordable, with no complex billing and no annual contract. All web, VoIP and video features included, there are no add-ons or hidden costs to juggle.

e/pop®
multiparty video conferencing at its best™
